

### Pollution

Discard the effect.  
On an polluted world, destroy simultaneously one factory per occupant until the balance is reached. The population may flee (for free) to the related sun and change color (your choice).

### Pollution

Discard the effect.

### Overpopulation

Discard the effect.  
On an overpopulated world, each occupant loose simultaneously one population until the balance is reached. Also, any effect applied to this world is automatically discarded.

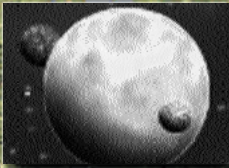

### Overpopulation

Discard the effect.  
On an overpopulated world, each occupant loose simultaneously one population until the balance is reached. Also, any effect applied to this world is automatically discarded.

### Overpopulation
